actually taking up the advanced methods and practice them.

Dr. Blumer's work has been successful and most magnificently successful. Success always evokes envy. Men embittered by failure always hate those who have you where they have lost. No one who has achieved dislost. No one who has achieved dis-tinction in any field of action, can hope to escape slander. That is the revenge which jealous mediocrity ever takes upon superiority. Ignorance, superstition, prejudice and jealously have done more to retard the world's progress and shorten human life than all other things combined. Let a man of science make a discovery and give of science make a discovery and give it to the world for the increase of human knowledge, the alleviating of human suffering and the prolongation of life, and all the obscure little would-be scientists will growt at him as a self-advertising mountebank and quack. Remember it is the men who do things that keep the world moving. And it is wise not to forget that as Huxley remarked: "The only people who never make mistakes are those who never do anything." The old idea

who never do anything." The old idea that truth must be throttled at its birth, or in its lafancy, is passing away as brighter intellects come upon the field of action. For old things are n reality becoming new. It skaptical and down-hearted be-cause of the failure of others, there is hope for you by this the acknowl-edged scientific treatment of the age. A single treatment will convince the most discouraged. The best evidence most discouraged. The best evidence of this is obtained by calling at the offices of the Psychopathic Doctors, No. 16 Broadway, Norwich, where you can meet and hear from patients' lips of their miraculous recoveries from all manner of diseases. Men, women and children are equally susceptible to these health given influences and you have the positive assurance that no harm can come from these treat-

Cures made by them are not simply patched up by some outside material means, but by the enforcement of nature's laws within the body and the results are positively permanent and They number among their cured

catrons many of our wealthy, edu-ated and refined citizens, who come

to them simply because they found no help elsewhere. Hundreds have received treatment from their hands, many of whom are forced to admit that the Psychopathics' method of healing is simply marvelous in its results.

Their wonderful success has spread like wild-fire among those who had given up all hopes of ever being well again, and they are by hundreds availing themselves of his miraculous power and gift of healing, which has proved to the surest, quickest and most reliable means of cure ever offered a long suffering public.
